

Get food from A to B smoothly, easily and safely... and keep the prepared food constantly at the right temperature. The ISOBOX® Mobile, with its small dimensions, large loading capacity and low weight, is all you need.

Safely keep cold food at the right temperature – insert the ISOBOX-COOLER module and the internal temperature is quickly lowered to +4°C. The temperature can be adjusted precisely using a digital controller.

DIMENSIONS

456 W x 155 D x 428 H mm

POWER SUPPLY

230V 50 HZ 10A single phase (plugged)

TECHNICAL DATA

Energy Consumption: 150W Cooling Module

Weight: 12 kg

Protection Class: IP22

Temperature Range: Capable of cooling ISOBOX to + 4°C
