

Get food from A to B smoothly, easily and safely... and keep the prepared food constantly at the right temperature. The ISOBOX® Mobile, with its small dimensions, large loading capacity and low weight, is all you need.

Reliably keep food warm with the Hupfer ISOBOX® Mobile – simply insert the ISOBOX-Heater module. The internal cart temperature is raised very quickly to a maximum of 100°C. The temperature can be adjusted precisely using a digital controller – for optimum temperature control.

DIMENSIONS

451 W x 155 D x 398 H mm

POWER SUPPLY

230V 50 HZ 10A single phase (plugged)

TECHNICAL DATA

Energy Consumption: 400W Cooling Module

Weight: 8 kg

Protection Class: IP22

Thermoelectric Supply: Tubular heating element with air recirculation

Temperature Range: 30 – 95°C

SPECIFICATIONS ARE SUBJECT TO CHANGE WITHOUT NOTICE.
