

Open basket dispenser with height-adjustable platform for stacking ISO or SPRI baskets.

Dispenser in self-supporting and hygienic design, made of high-quality stainless steel. Closed base plate folded on all sides. Installed on top is a closed spring case with a height-adjustable closed platform with continuous upstand and ball bearing platform guide. Consistent output height thanks to manually adjustable stainless steel tension spring system. Four massive polymer corner bumpers, of which two at the upper corners of the structure that serve as bumpers and protect the equipment on all sides as well as building-side walls from being damaged, with integrated, ergonomically-shaped push bars. Dispenser runs on 4 swivel casters of which 2 with total locks, \varnothing 4.9" (125 mm), fastened by means of screw-on plates and several screws.

Similar to illustration, technical modifications reserved. Without decoration.
