

Brema's MUSTER range of modular ice flaker heads produces sub-zero flat ice flakes which automatically drop into a separate Brema storage bin.

The Brema M1500A is a modular ice flaking machine that produces 1500kg of flat ice flakes per 24 hours and is designed to fit on top of a range of Brema storage bins with differing capacities from 500kg to 1200kg.

At between -5°C and -10°C , MUSTER flaked ice is ideal for processing, transporting and preserving foods. The ice is long-lasting, has a fast and efficient refrigerating effect and is easy to handle and dose.

STANDARD FEATURES

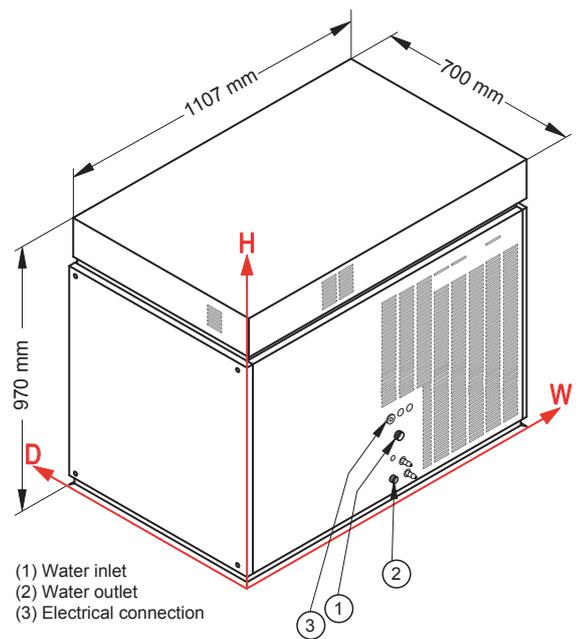

- 1500kg production per 24 hour
- Can be installed on top of storage bins with capacities between 500kg and 1200kg
- Produces flat ice flakes between -5°C and -10°C
- Production rated at 21°C air and 15°C water
- Hospital grade stainless steel outer
- Electromechanical operation
- Powerful cylindrical evaporator and ice scraper system
- Water to ice ratio - 1L of water makes 1kg of ice

STANDARD ACCESSORIES

- Water inlet hose
- Drainage hose
- External water filter
- Pressure limiting valve

Cold Flakes

DIMENSIONS

1107W x 700D x 970H mm

Clearances: Rear: 100mm Sides: 100mm

POWER SUPPLY

415V 50Hz three phase (cable without plug)

CONNECTIONS

3/4" Water inlet, 24mm Water outlet & Electrical connection

	W	H
Water inlet	563 mm	192 mm
Water Outlet	528 mm	65 mm
Electrical Connection	532 mm	262 mm

USABLE BINS

BIN550 V DS, DRB100, DRB500, DRB1200

TECHNICAL DATA

Energy Consumption: 6000W

Fuse: 32A

Production 24h: 1500kg

Cooling System: Air

Cube: Sub-zero flake

Refrigerant: R452A

Weight: 306kg

WaterMark: Yes
