

Brema's MUSTER range of modular ice flaker heads produces sub-zero flat ice flakes.

The Brema M2000A is a modular ice flaking machine that produces 2300kg of flat ice flakes per 24 hours and is designed to be installed on top of freezer rooms

At between -5°C and -10°C , MUSTER flaked ice is ideal for processing, transporting and preserving foods. The ice is long-lasting, has a fast and efficient refrigerating effect and is easy to handle and dose.

Cold Flakes

STANDARD FEATURES

- 2300kg production per 24 hours
- Can be installed on top of freezer rooms
- Produces flat ice flakes between -5°C and -10°C
- Production rated at 21°C air and 15°C water
- Hospital grade stainless steel outer
- Electromechanical operation
- Powerful cylindrical evaporator and ice scraper system
- Water to ice ratio - 1L of water makes 1kg of ice

STANDARD ACCESSORIES

- Water inlet hose
- Drainage hose
- External water filter
- Pressure limiting valve

DIMENSIONS

1062W x 832D x 1423H mm

Clearances: Rear: 100mm Sides: 100mm

POWER SUPPLY

415V 50Hz three phase (cable without plug)

CONNECTIONS

3/4" Water inlet, 24mm Water outlet & Electrical connection

	W	H
Water inlet	684 mm	192 mm
Water Outlet	659 mm	65 mm
Electrical Connection	651 mm	271 mm

TECHNICAL DATA

Energy Consumption: 7000W

Fuse: 32A

Production 24h: 2300kg

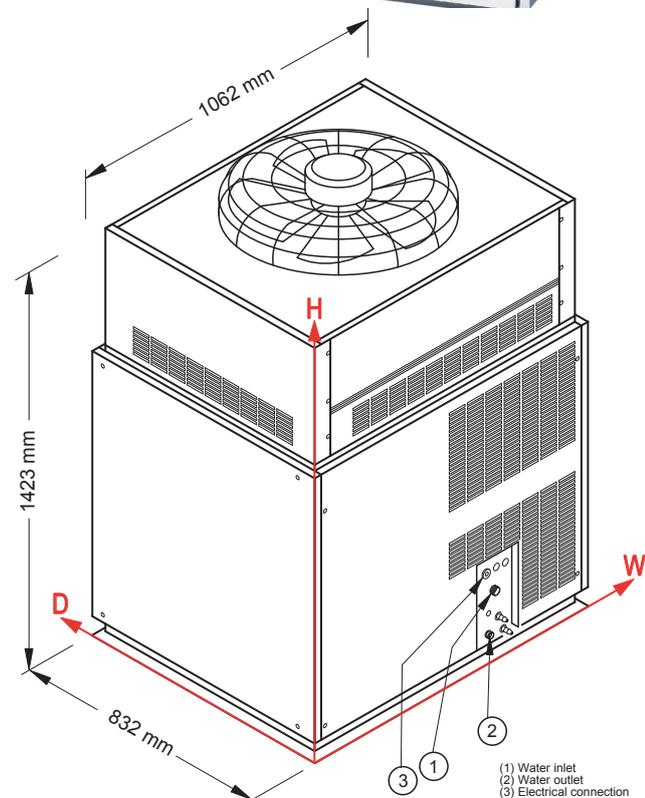

Cooling System: Air

Cube: Sub-zero flake

Refrigerant: R452A

Weight: 520kg

WaterMark: Yes

(1) Water inlet
(2) Water outlet
(3) Electrical connection
