Easy application in the new 2-step cleaning process

Attach the pacotizing® blade and spray guard, fill the pacotizing® beaker to the maximum fill line with 40-58 °C warm water, add a Pacojet Cleaning Tab, attach the pacotizing® beaker and protective beaker, start cleaning process.

Perform rinsing cycle with clear water and stop cleaning process.

The Pacojet Cleaning Tabs can also be used in the 3-step cleaning process.

In this case, the cleaning tab is added during the second cleaning step.

Important notes

Avoid direct contact with Pacojet Cleaning Tabs – may cause burns to the skin and severe eye damage.

Protect from heat: The cleaning tabs must not be stored (even for a short time) in the immediate vicinity of a heat source (heater, direct sunlight).
